Welcome to Having Your Donor Find YOU! a program I developed to inspire and educate you to have a successful living kidney transplant experience.

As a 2-time living kidney recipient, and the founder of the non-profit organization, Living Kidney Donors Network, I have assisted hundreds of recipients and donors through the transplant process. This experience has provided me with a unique perspective and a deep understanding of how recipients achieved their success and why people donate.

Please take time to watch this program, which is presented in 9 short episodes that take you through the basic steps of *Having A Donor Find You*. There isn't anything like this – anywhere!

Each episode explains the things you'll need to set yourself up for success. One of the biggest factors to know is you don't need to "ask" someone to donate. This is the most common reason given for not pursuing a living donor. What every donor has in common is that they heard the recipient's story, it's all about "telling your story" – not asking someone to donate.

There isn't one definitive way to have a successful living kidney transplant experience, but there are things that have proven to help your donor find you. In addition, this process has similarities to conducting a job search – which you can apply as well. To assist you further, are the Supporting Resources on the website.

I'm confident this program will help you find success in the search for your donor. Please let me know what's been particularly helpful or how I can improve the program so I can continue to help others in need.

I wish you the best in this journey.

Harvey Mysel
